

BABY BLUE

*This moment in time
To the deepest waters some is inclined
The day changes, such is time
The darkness comes, but I feel fine
I see a rainbow without sunshine
Could touch a star, but I decline
I know I'm nearer to the divine
For in the darkest hour, I still shine*

*I'm telling you it's unblocked
Now there's so much we can do
Don't you stop, don't you stop
Yeah yeah yeah my baby blue
I'm telling you it's your life
Now you can see your way through
Let it go, let it drop
Don't you look back baby blue*

*Beneath the waters here I see
The way we were meant to be
Unblock the romance of all time
By letting go what's yours and mine
The gulf between earth and skies
Was never here, when we could fly
Around the worlds, you and I
Extensively we did fly*

*I'm telling you it's unblocked
Now there's so much we can do
Don't you stop, don't you stop
Yeah yeah yeah my baby blue
I'm telling you it's your life
Now you can see your way through
Let it go, let it drop
Don't you look-*

*I'm telling you it's unblocked
Now there's so much we can do
Don't you stop, don't you stop
Yeah yeah yeah my baby blue
I'm telling you it's your life
Now you can see your way through
Let it go, let it drop
Don't you look back baby blue*
