

Beautiful Day

*Someday soon, you'll make a start
you'll find your role in life,
and bring a smile to someone's heart,*

Day after day, is one step on the way?

*Changing times no need to scream
now you've made your choice
no need to live somebody's dream*

Day after day, is one step on the way,

*you can drive away and lose it,
when you are so close to it
things you couldn't say you'll say*

When drifting clouds reveal

A beautiful day
