

Eternity

*Empty pockets on this beat
Losing profit can't get no sleep
Solitary comes around
They way we feel when you are out of town*

*In my dreams I see, what we are meant to be
Whish you would let me know for
This could be*

Eternity Eternity Eternity

*Needing a friend maybe
Who know when you'll be?
Surely I could be
Now don't you need me?*

*Solitary comes around
The way you feel when you're upside down
Solitary comes around
The way you feel when you're upside down*

*In my dreams I see, what we are meant to be
I wish you would let me know for this could be
(You gave wings to me, to the skies now baby, we can fly now)*

Eternity Eternity Eternity

*In my dreams I see, what we are meant to be
I wish you would let me know for this could be
(you gave wings to me, to the skies now baby, we can fly now)*

Eternity Eternity Eternity
