

FUZZ

*Seem like it's all fallen down now
now you gonna cry a river of tear
Seem so close to the ground now
gravity has got you,
you are staying down here.*

*Hay you standing there
looking in the mirror of time
aint no use looking back in contenplation
it's gonna get you no where.*

*Eveybody feel,evebody knows,everybody
really need sombody all around the world
Who feels it know it, you know you need sombody too,
cause everybody really need sombody, all around the world.*

*Feels like we never ever gonna break through
we are always after something new,
Feels like they are running rings around you
and no one knows what to do.*

*Eveybody feel,evebody knows,everybody
really need sombody all around the world
Who feels it know it, you know you need sombody too,
cause everybody really need sombody, all around the world.*

*You see all the money that you can have can't buy
you everything
but just one minute in your world is worth everything.*

*Eveybody feel,evebody knows,everybody
really need sombody all around the world
Who feels it know it, you know you need sombody too,
cause everybody really need sombody, all around the world. (rep)*
