

Over Our Heads

*Close your eyes
Can't you see it's burning slow?
Fading down the sparks of fire earth bound
Space in two
Warm beyond the love below
Close your eyes
It's time for us to go*

*Over our heads
Light keeps passing through
Over our heads
Light from me to you*

*Falling down
Way beneath the healing skies
Rise and shine
The crying times left behind*

*Over our heads
All we see is true
Over our heads
Can't you see it too?*

*Over our heads
Light keeps passing through
Over our heads
Light from me to you*
